

INFRASTRUCTURE

We provide highly reliable infrastructure for today's growing business

In today's economically testing times it is important that companies adopt innovative ways when responding to business needs.

With tighter budgets it is imperative to ensure infrastructure costs do not spiral beyond control. Companies need partners that understand this and work collaboratively to ensure infrastructure demands are effectively aligned with customers growing needs within agreed budgets.

From complete data centre hosting to individual 24/7 web/email hosting we have partnerships with leading infrastructure specialists in providing state of art infrastructure services.

Partnering with us will give you the following benefits:

- ✓ Outsourcing your infrastructure to us will give you more time to concentrate on your core business
- ✓ Flexible SLA's in place keeping in mind customers needs and constantly evolving business requirements
- ✓ Increased margins and re-invest surplus
- ✓ On-demand reliable scale up infrastructure that gives your customers confidence forging long-term fruitful relationships

We offer the following infrastructure services:

- ✓ Help Desk Management
- ✓ Data Centre Provisioning and Management
- ✓ Application Hosting and Management
- ✓ Infrastructure Support
- ✓ Infrastructure Hosting (Managed and Shared)

Our team can help you build and manage a highly reliable IT Infrastructure that delivers and meets ever changing needs of today's businesses
